DETAILED ACTION

Response to Arguments

Applicant's arguments, see Remarks, filed 6/6/2006, with respect to the 112 rejection of claim 1 have been fully considered and are persuasive. The 112 rejection of claim 1 has been withdrawn.

Applicant's arguments, see Remarks, filed 6/6/2006, with respect to the 103 rejections have been fully considered and are persuasive. The 103 rejections of claim 1 has been withdrawn.

Information Disclosure Statement

The information disclosure statement filed on 6/6/2006 was considered by the Examiner. Weinmann (6505369) was not considered because it has been previously considered and indicated on a prior form 892.

Allowable Subject Matter

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or suggest the exact method disclosed by Applicant, particularly measuring the power consumed by the motor during the acceleration phase and measuring an acceleration time; forming a difference value between the energy consumption during the acceleration phase and a product of the acceleration time with an average value of the first and second friction powers of the drum rotation measured with constant preliminary dewatering, and

deducing from the difference value the loading of the drum. Payne, Weinmann's other cited references, and any of the other cited related art do not disclose this method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
